STOP WORK ON MAY 12TH *GIVE SCHEME WORKERS THEIR RIGHTS*

The Coalition has launched a devastating attack on the Community Employment Programme, trying to cut 7000 jobs back. Many schemes are already the only alternative to long term unemployment, and this attack makes a mockery of any Coalition rhetoric of "job creation".

Community Employment workers contribute a lot to their areas. Community centres, art centres and information groups all depend on the labour of CEP workers. Now, many of these resources for the community will be curtailed, and the alternatives for the long term unemployed reduced.

Scheme workers are treated terribly, getting paid £79 for a 20 hour week. Last year, Ruairi Quinn decided this miserly wage should be taxed, and £5 was deducted at source.

As long as scheme workers remain unorganised, our wages and conditions are open to these attacks. We need to form our own network, unionise and defend our jobs and conditions.

John Bruton is coming to speak at the Chamber of Commerce meeting on Friday at 7pm. We can make a stand and object to the cutbacks in this area. Join the Picket on the Granville Hotel.

All scheme workers should support the picket, and organise the work stoppage in their scheme on the 12th.

The Scheme Workers Alliance and the INOU has organised a picket in Dublin on the Dáil on 2pm Friday 12th, the day of the Work Stoppage. Those angry at FAS and the Government should bring as many from their scheme and make as much noise as possible. So bring your whistles, placards and drums!

PICKET JOHN BRUTON'S VISIT
7pm Granville Hotel Waterford
Meeting Afterwards: Speaker; Joe Carolan (Scheme Worker & Socialist Workers Party)
